Metric Change Control Record

Title of Change:	Data Calculation Correction to correct the Flow Through Indicator OR-5-01, OR-5-02 and OR-5-03 for C2C	Document No.:	CCNJ2001-02189-Ord
First Data Month in Production:	August 2001	Scheduled Filing Date:	September 25, 2001
Data Month(s) Affected:	August 2001	Products Affected:	All
Change Type:	Data Calculation Correction	State:	New Jersey
Domains Involved:	Ordering	Report Type:	Carrier to Carrier
Metrics Affected:	NJ, PA, VA: OR-5-01, OR-5-02. NJ, VA: OR5-03	Mode of Entry:	Resale and UNE

Business Reason:

Recent analysis has revealed that a number of orders initially marked as eligible for Flow Through had the Flowthrough Indicator change to "N" (No) even though they did flow through and the appropriate electronic confirmation notices were provided to the CLECs. These orders are included in the denominator but are erroneously excluded from the numerator thus reducing the performance results.

Additional Information: (You can include attachments or doclinks to Supporting Materials here{i.e. Guideline Documents, Related Change Requests, etc.}).

*Status:	Scheduled

**Subject:** Verizon Wholesale Metrics Change Control Notification CC # CCNJ2001-02287-Bil

Metric Change Control Record

Title of Change:	Data Calculation Correction to Mid-Atlantic C2C BI-2 metric	Document No.:	CCNJ2001-02287-Bil
First Data Month in Production:	August 2001	Scheduled Filing Date:	September 25, 2001
Data Month(s) Affected:	May 2001, July 2001	Products Affected:	All
Change Type:	Data Calculation Correction	State:	New Jersey
Domains Involved:	Billing	Report Type:	Carrier to Carrier
Metrics Affected:	BI-2	Mode of Entry:	All

Business Reason:

The Billing Reformat System (BRS) team observed a disparity in the denominator (count of paper Carrier Bills distributed) for the May and June 2001 data month for the Timeliness of Carrier Bill (BI-2) metric. This disparity became apparent since a history of this metric produced flat results over time. Although observations identified were incorrectly stated, the Verizon Billing system distributed all bills on time and the timeliness metric was unaffected.

Additional Information: (You can include attachments or doclinks to Supporting Materials here(i.e. Guideline Documents, Related Change Requests, etc.)).

Metric Change Control Record			
Title of Change:	Data Calculation Correction to remove Dark Fiber from Maintenance Metrics	Document No.:	CCNJ2001-02298-Mai
First Data Month in Production:	September 2001	Scheduled Filing Date:	October 25, 2001
Data Month(s) Affected:	September 2001	Products Affected:	EEL, IOF, Specials
Change Type:	Data Calculation Correction	State:	New Jersey
Domains Involved:	Maintenance	Report Type:	Carrier to Carrier
Metrics Affected:	MR-2-01, MR-2-05, MR-4-01, MR-4-02, MR-4-04, MR-4-06, MR-4-07, MR-4-08, MR-5-01	Mode of Entry:	UNE

Business Reason:
To comply with the 5/17/2000 revision to the FCC UNE Remand order, Verizon began to offer Dark Fiber, where available, as an unbundled network element (UNE) to CLECs throughout the footprint. Dark Fiber is a continuous fiber optic strand in an existing in-place fiber optic cable sheath owned by Verizon. Dark fiber is not considered a UNE loop, EEL or IOF. Dark Fiber is a separate product that is not considered part of the 271 filing and not measured in Verizon's performance. Therefore, it should not be counted in the UNE loop or UNE Specials metrics.
Additional Information: (You can include attachments or doclinks to Supporting Materials here(i.e. Guideline Documents, Related Change Requests, etc.).

**Subject:** Verizon Wholesale Metrics Change Control Notification CC # CCNJ2001-02404-Ord

Metric Change Control Record			
Title of Change:	Data Calculation Correction for Stand Alone Directory Listings for C2C Ordering metrics.	Document No.:	CCNJ2001-02404-Ord
First Data Month in Production:	August 2001	Scheduled Filing Date:	September 25, 2001
Data Month(s) Affected:	June 2000, July 2001	Products Affected:	Directory Listings
Change Type:	Data Calculation Correction	State:	New Jersey
Domains Involved:	Ordering	Report Type:	Carrier to Carrier
Metrics Affected:	North States: OR-1-01,02,03,04,05,06 OR-2-01,02,03,04,05,06 OR-5-01,02,03 South States: OR-1-01,02,03,04,05,06,07,08,09,10 OR-2-01,02,03,04,05,06,07,08,09,10 OR-5-01, 02, 03 (except PA)	Mode of Entry:	UNE

**Business Reason:**

Investigation has revealed that the categorization of stand alone directory listings for certain request types has not been accurate. The listings are being incorrectly omitted from the UNE OR metrics. This issue was identified with the June 2001 system release which replaced DCAS with Request Manager in certain Verizon locations. Request Manager did not contain the same categorization functionality for stand alone directory listings as DCAS. This issue has affected Request Manager transactions since inception.

Metrics Affected:	North States: OR-1-01,02,03,04,05,06 OR-2-01,02,03,04,05,06 OR-5-01,02,03 South States: OR-1-01,02,03,04,05,06,07,08,09,10 OR-2-01,02,03,04,05,06,07,08,09,10 OR-5-01, 02, 03 (except PA)	Mode of Entry:	UNE

Business Reason:
Investigation has revealed that the categorization of stand alone directory listings for certain request types has not been accurate. The listings are being incorrectly omitted from the UNE OR metrics. This issue was identified with the June 2001 system release which replaced DCAS with Request Manager in certain Verizon locations. Request Manager did not contain the same categorization functionality for stand alone directory listings as DCAS. This issue has affected Request Manager transactions since inception.
Additional Information: (You can include attachments or doclinks to Supporting Materials here{i.e. Guideline Documents, Related Change Requests, etc}).
